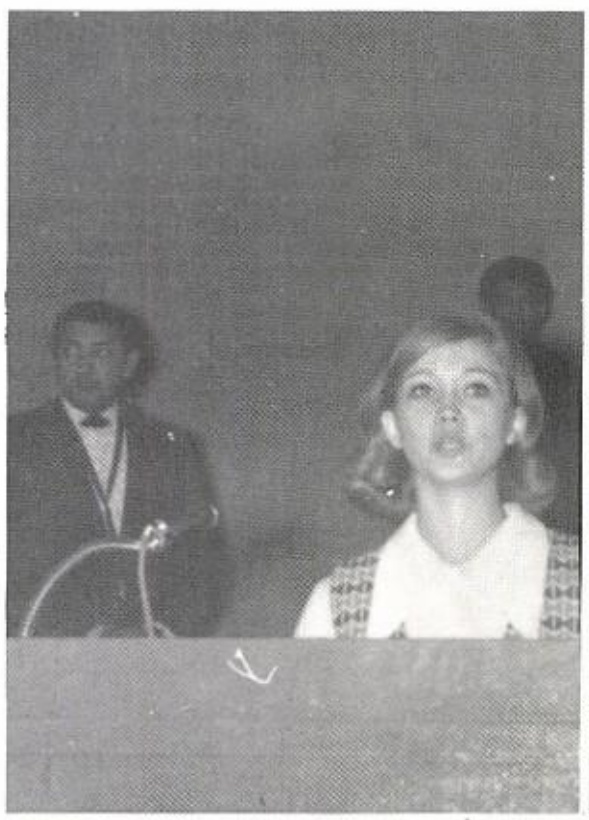
Dedication

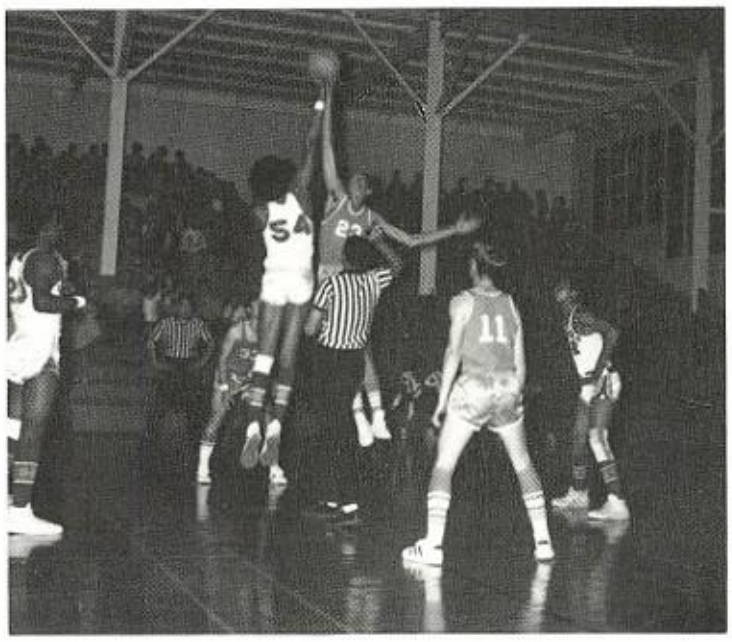
1971 was a year of new experiences for the students of Elysian Fields High School. Booker T. Washington High School and Elysian Fields High School were combined for the first time, and despite the predictions of some, the students of both schools showed a remarkable spirit of co-operation, good will, and determination to make this new situation work----and they have. It was not court orders or administrative directives that made this a good school year---it was the work of the students themselves.

We therefore dedicate the 1971 edition of the JACKET to those who met the challenges successfully and who overcame the difficulties inherent in combining the two student bodies:

THE STUDENTS OF ELYSIAN FIELDS HIGH SCHOOL

---THE ANNUAL STAFF





Foreword
1971

1971!! There have been many new dimensions explored this year. Our headlines have carried the news of the progress in the war, the very rapidly changing fashion scene, riots, and the deaths of many beloved people. All are very important events, but they show a "rougher" side of life. The following pages present 1971 as we, the students of Elysian Fields High School, have enjoyed it. There have been hard times, but the student body as a whole has withstood them. In future years, we can look back, and through this medium, re-live the momentous events that brought such happiness to us.

ADMINISTRATION

I am honored to have this privilege to submit this message to your class for the 1971 Jacket. May I take this opportunity to congratulate the Annual staff, under the direction of Mrs. Maxine Best, for a job well done. For it is through your tireless effort and hard work that this annual will be cherished by each of us for a long, long time. Fond memories that we have all experienced together this past school year cannot be re-lived, but this annual can long be remembered--so treasure this book as a milestone in your educational career.

The demand for higher education beyond the high school level is definitely beyond the talking stage, and the opportunities for each of you are greater than ever before in our history. If you have a desire and a wish to attend college, follow through with your desire to learn and your wish will materialize to a reality.

I need not remind you of the contribution and sacrifice that your parents have made through your first twelve years of public school education. It is a joint effort of parents, teachers, administrators, and school board members that produces the best education possible. We here at Elysian Fields have worked toward that goal of producing a sound educational program so that each of you can be better prepared for life.

Take your place in our great society. For here in America, as in no other country in the world, does such a great society exist. Always be proud that you are an American and have inherited that right to contribute to our ever-growing society.

Come back and visit us here. You are always welcome. To each of you, may I express my sincere best wishes. God Bless You.

Sincerely yours,

A. P. DeMare

A. P. DeMare

Dear Students:

This message is our means of expressing our appreciation to you for making this year so fruitful and enjoyable.

Your cooperation with administrators, teachers and each other in working together and striving to develop knowledge, skills, attitudes, and appreciations which prepare one to meet the problems of tomorrow has been gratifying.

To our Seniors, we wish you the best in whatever endeavor you undertake, and to those of you who will be returning next year, we are looking forward to another successful year.

Sincerely,

Gene Oden

Dear Students:

Thanks to the sponsor and staff for this medium of advertisement for our school. It is by this type of media that our school gets into the homes of our community.

To those of you who are Seniors, we wish for you the best of everything in the years to come. We hope all of you will be successful in whatever field you enter.

Many best wishes to all the students of Elysian Fields Secondary School.

Sincerely yours,

D. H. Fluellen
